# SR 520 Bridge Replacement and HOV Program

May 2012

## Contracting and job opportunities for the SR 520 program

The Washington State Department of Transportation (WSDOT) is moving forward with the SR 520 Bridge Replacement and HOV Program.

We are funded to build transit and HOV improvements on the Eastside, bridge pontoons in Aberdeen, and a new SR 520 floating bridge on Lake Washington. All three of these projects are currently under construction.

As funding becomes available for additional project components in Seattle, we will award additional contracts and create opportunities for trades, material vendors and suppliers.

### What is WSDOT's contracting process?

WSDOT hires contractors to complete construction projects. Selected contractors are responsible for securing vendors and sub-contractors and assembling a workforce.

WSDOT will work with contractors to ensure that contract information is available to potential subcontractors, vendors and suppliers.

*Two iron workers tie rebar on pontoons under construction in Aberdeen, WA.*

### SR 520 current contract information

Project	Contract Amount	Apprenticeship requirement	DBE* goal

### Where can contractors learn about upcoming WSDOT contracts?

WSDOT advertises projects on the Contract Ad and Award website: [www.wsdot.wa.gov/biz/contaa/](http://www.wsdot.wa.gov/biz/contaa/).

At this website, contractors can view projects that are available for bid, learn about prequalifications, and stay up-to-date with contractor bulletins.

### Apprenticeship requirements

WSDOT requires contractors to provide apprenticeship programs that provide on-the-job training and supportive services to assist contractors with recruitment and placement of minorities and women, as well as to provide advocacy and support for individual apprentices/trainees participating in the program.

### SR 520 commitment to Disadvantaged Business Enterprises

WSDOT strives to create equal access and make opportunities available for Disadvantaged Business Enterprises (DBEs) on public works and other transportation-related projects.

Individual DBE goals are established for each federally funded SR 520 project based on the opportunities available and funding sources.

WSDOT is committed to ensuring DBE firms are afforded equal access and opportunities consistent with the DBE program.
