

Fellow Work Zone Practitioners,

We have a number of new resources available on the FHWA Work Zone website. I particularly want to highlight a series of products we recently-published on incorporating work zone safety and mobility considerations in design-build projects. Good work zone planning, design, and operations practices are important in design-build projects, but may need to be applied somewhat differently because of how project processes differ from traditional design-bid-build. Our new products offer some tips and examples to help.

I invite you to visit our homepage at <http://www.fhwa.dot.gov/workzones> or click on one of the links below to go directly to one of the new resources.

Design-Build (DB) and Work Zones

- [Series of DB Resources](#)
 - Key Considerations
 - Case Studies
 - Tips for Developing RFPs
 - Summary Leaflet of Successes, Challenges, and Tips

Design and Construction Strategies

- [Materials from 2012 Peer Exchange on Accelerated Road Work for Work Zone Safety and Mobility](#)

ITS Use in Work Zones

- [Development of Hybrid DSRC - PCMS Information Systems for Snowplow Operations and Work Zones](#)

National Work Zone Awareness Week (NWZAW)

- [2013 National Work Zone Awareness Week – "Work Zone Safety: We're All In This Together"](#)
 - Materials from the National Kickoff Event and Poster
 - FHWA Factsheet and FOCUS Article
 - Highlights from NWZAW Events Around the Country
- [Webinar Presentations and Recording on NWZAW Outreach Ideas and Activities](#) – Held February 6, 2013

Performance Measurement

- [Brochure](#) - Summarizes 3 guides on identifying and using data sources and methods for work zone performance measurement.
- [Data Needs, Availability, and Opportunities for Work Zone Performance Measures](#)
 - Guide
 - Webinar Presentations and Recording – Held March 19, 2013
- [Work Zone Self Assessment](#) – 2012 National Results Report

Traffic Management

- [Applying the Americans with Disabilities Act \(ADA\) in Work Zones](#) - practitioner guide and video
- [Maryland SafeZones Automated Speed Enforcement Results in Fewer Aggressive Drivers/Speeders in Work Zones](#)
- [Temporary Traffic Control for Roundabouts](#)
- [Traffic Enforcement Strategies for Work Zones](#) - NCHRP report 746 and associated research document

Worker Safety

- [Worker Fatigue in Rapid Renewal Environments](#) - SHRP 2 Renewal Project R03

Work Zone Analysis and Planning

- [Strategic Approaches at the Corridor and Network Level to Minimize Disruption from the Renewal Process](#) - SHRP2 Renewal Project R11
- [Understanding Driver Behavior in Work Zones](#) – Public Roads Article
