SR 520 construction update: June 2015

Public tours

The second SR 520 Floating Bridge and Landings tour was held on June 27. Thirty members of the public were split into two smaller groups and led on a tour of the construction site by project engineers. Photo taken: June 27.

West Approach Bridge North (WABN) public tour participants learn about the temporary work bridge used to build the permanent bridge structure. Photo taken: June 3.

West Approach Bridge North construction activities

A crew member on the WABN Project uses an excavator to install new drainage under the eastbound lanes of SR 520. Photo taken: June 6.

Crews on the WABN Project use jackhammers to break up concrete in order to add pedestrian ramps to the sidewalk on the west side of Montlake Boulevard. Photo taken: June 22.

Crews on the WABN Project fog the deck in order to keep the deck moist. Photo taken: June 26.

During June 26-29 closure, crews on the WABN Project chip away the final pieces of wood from under the deck of the new westbound SR 520 off-ramp to Montlake Boulevard before pouring the final concrete. Photo taken: June 27.
