PETITION TO WSDOT
March 8, 2003

The Department of Transportation is considering three options for the SR-167 Valley Avenue Interchange that will impact citizens of Fife, Puyallup, and our neighborhood in Edgewood.

The Valley Avenue Option clearly has the least impact to existing neighborhoods.

We urge the State to adopt this plan.

RESPONSE C76-001

The Valley Avenue Interchange Option is the environmentally preferred option with the least amount of impact to adjacent properties.
