

SR 520 Bridge Replacement and HOV Program

SR 520 construction update: October 2012

Floating bridge construction

Construction barges are used for installation of east approach components on top of the east cross pontoon on Lake Washington.

Crews work at the Kenmore construction site. Completed fluke anchors can be seen in the background.

Crews complete work on the second cycle of supplemental pontoons in Tacoma, WA.

Eastside construction

Massive concrete girders are hauled into place at the work site during the October 2012 weekend closure.

Crews carefully place the girders to form the foundation of the new 84th Avenue Northeast lid.

Pontoon construction

Iron workers tie rebar between interior precast walls as the second cycle of pontoons take shape in Aberdeen, WA.

Crews place concrete at the pontoon construction facility in Aberdeen, WA.
